

Hello everybody,

Please note the following amendments to the original BISM1201 assignment specification. A new specification (which includes these amendments) is now available on the course Blackboard site. You will also find this update as a PDF file in the folder “Assessment”, and then “BISM1201-Assignment (BPMN, ISD, Excel)”.

1. In part B (ISD), the opening paragraph originally read: “should be recorded within the ISD worksheet of the BISM-Assign-2020-Sem-1.xlsx file”. This now reads: “should be recorded with a PDF file (with your BPMN solution).”
2. In part C (Excel), the end of section 1. I have added the following sentence: “You may also include the MIN function in this formula (the use of MIN is optional).”
3. In part C (Excel), the end of section 3. I have added the following sentence: “As an example, Hillary Grant’s email would be shown as: H.Grant@uq.edu.au”

Please also note below an image of the completed Excel part C. This should help you test and verify your part C work.
