Multicultural

Mission Statement

Multicultural fosters a better understanding and appreciation of various cultural contributions and encourages different perspectives of multicultural individuals that will further enhance RSM's business, diversity and inclusion objectives by actively supporting the recruitment, development and retention of talented multicultural individuals and overall promote cultural diversity within our firm and our people.

About

Multicultural hosts events throughout RSM and collaborates with many other ENGs to provide professional development to our employees, networking and business development, internal growth opportunities and recruiting for campus and experienced professionals. Some of the premier events the ENG hosts are Around the World with RSM, Cultural Holiday dessert bars and many other cultural celebrations. Multicultural collaborates with other ENGs to celebrate and recognize multiple heritage months throughout the year, International Women's Day.

Multicultural engages in community service and supports organizations like After-School All-Stars and other non-profit organizations benefiting the community.

Multicultural has a defined subgroup for Russian-speaking employees in RSM. This group connects RSM's Russian-speaking professionals from various backgrounds by engaging in cultural events alongside business and career development opportunities.

The Multicultural ENG publishes a variety of videos to help us get to know one another better and expand our appreciation for our many cultures and backgrounds. Be sure and check them out! They can be accessed through the Multicultural articles archive quick link (on the right).
