We know that people aren't used to talking about their income, but we ask these questions to get an OVERALL statistical picture of how housing costs compare to income, NOT to find out about ^You_Thehousehold personally. If you and someone else in your household have received a specific type of income jointly, such as income from rents, dividends, interest payments etc., please report that income only once, i.e., report the total from each of those sources for only one of you and not for each person in the household receiving such income.
