Write a short paper (not more than 4000 words all inclusive) on one of the following topics, focusing on the econometric methodology.
1. India's Digital Arrival
2. Economic development and climate change

The topics are rather broad and you may choose to focus on a narrower theme within one of these broad topics. The paper ideally should include the following-
Abstract, Short Introduction, Research question, Data description, Econometric model, Analysis of the model- are underlying assumptions satisfied, possible drawbacks of the model, etc., Results, Conclusion, References.

Analysis should be done on R and attached with the paper, along with the data file used.
